Forecast for Tuesday 16 Jan 2024

Weather: A dry night leading to a bright start with some early sunny intervals though soon clouding over. Then occasional mainly light snow developing from mid to late morning, down to low levels at first but turning to rain below about 400m during the afternoon. Turning clearer and drier during the evening.

Chance of cloud-free hill tops above 700m: 80% at first falling 20% by late morning, rising to 80% after dark.

Low cloud and visibility: Good visibility at first, then low cloud arriving at 500-750m from mid to late morning with hill fog and moderate, perhaps poor visibility in snow, or rain on lower slopes. Becoming mainly good again during the evening.
